EF Global SICAV plc

The EF Global SICAV plc is a collective investment scheme organised as a multi-fund investment company with variable share capital, registered as a limited liability company with variable share capital (SICAV) under the laws of Malta on the 2nd April, 2012 and licensed by the Malta Financial Services Authority under the Investment Services Act, 1994 as a Qualifying Professional Investor Fund.

The Offering Supplement for the Lighthouse Global Strategic Fund forms part of and should be read in conjunction with the Offering Memorandum of the EF Global SICAV plc dated the 11th April, 2012. All defined terms used herein and not otherwise defined shall have the same respective meanings as set forth in the EF Global SICAV plc Offering Memorandum.

INVESTMENT OBJECTIVE AND POLICIES

The Fund's overall investment objective is to maximise absolute returns over the medium to long term (which should be considered as a period of between 2 and 5 years), and to achieve substantial capital appreciation. The Fund will aim to achieve this result by adopting a Global Macro investment strategy with a primary focus on global equities and fixed income investments.

The Fund will seek to attain the investment objectives by investing primarily in individual stocks, REITs and ETFs. The Fund will use a variety of strategies in generating return including: thematic investing (i.e. emerging technologies), growth, value, yield and arbitrage (i.e. merger arbitrage). The Fund will selectively use short positions and options for hedging equity, interest rate and currency risks.

In attaining its objective, the Fund may use exchange traded derivatives or OTCs for both hedging and speculative purposes. When trading using OTCs the Fund will use the prime broker as sole counter party. No derivative contract will involve taking physical delivery of the underlying asset. The Fund shall not be restricted as to the nature of financial derivative instruments in which it may trade, although typically the Fund will enter into forwards and options.
